

CAD FILE:

ROHS

By external force touch or shaking will be conduct instantaneously.

产品特性

- 1、无方向性振动感应触发开关，任何角度均可触发。
- 2、本系列开关在静止时为开路OFF状态，当受到外力碰触而达到相应振动力时，或移动速度达到适当离心力时，导电接脚会产生瞬间导通呈瞬间ON状态；当外力消失时，开关恢复为开路OFF状态。
- 3、本系列开关触发灵敏度可根据客户要求作调整。
- 4、正常使用情况下开关寿命可达20万次。
- 5、适用于玩具、防盗报警器、电子秤等电子产品。

Feature:

- 1.XB-SW630X is spring type, Non-direction vibration induced trigger switches, any angle can be trigger.
- 2.The series of switches, at the rest is open circuit "OFF-state", When the external force to touch and reach the corresponding vibration, Or move in speed to reach the adequate centrifugal force. The conductive feet will be conduct instantaneously "ON-State". When the external force disappear, the switches will be revert the "OFF-State".
- 3.The series of switches trigger sensitivity can be customize according to the customer requirement.
- 4.In the normal, the switches lifespan can be reached 200,000 cycles.
- 5.Suitable for the toys, anti-theft alarm system, electronics scales etc electronic product.
